

50" Sound Sound Shelf

BDS4012-50-E474

Surround Sound Shelf in 50" width and in Dark Espresso wood finish

50" SURROUND SOUND SHELF | BDS4012-50-E474

AMPLIFIER

The low-noise, low distortion, high-output Class-D amplifier faithfully reproduces even the most delicate nuances, providing natural sound and powerful performances.

Low Signal to Noise Ratio: 105db

Loud listening environments can make it difficult to hear the movie dialog. The Voice Boost function reconstructs the vocal range bringing the dialog out front and easier to understand.

Add dynamic depth to low volume listening or extra punch when you crank it up with the Bass Boost function. The digital signal processor selectively reconstructs the sub-harmonic bass, adding punch and perceptual depth.

Powerful digital signal processing envelops the listener in a dimensional sound experience.

INPUTS/OUTPUT

Bluetooth
Digital Fiber Optic
Aux: RCA Stereo
Line 1: 3.5mm input
Line 2: 3.5mm input (side - control panel)
Subwoofer Out
Wireless Subwoofer Ready - For Bell'O Digital subwoofer

LEARNING REMOTE CAPABILITY

There is no need for multiple remote controls. Your current TV remote can also control the sound shelf. When your TV is set to use external speakers (sound shelf) the TV's volume is no longer controlled by the TV remote and these buttons become non-functional. This is okay, as the sound shelf can learn any of your TV remote's unused buttons. Volume, mute and every other function on the sound shelf remote control, or side panel controls, can be controlled by unused buttons on your TV remote.

EASY WALL MOUNTING

All mounting hardware is included for attaching the sound shelf to wood stud or masonry walls.

Overall Dimensions

50" w x 7.75" h x 12" d
